OUTCOME BASED EDUCATION

Outcome-Based Education is a student-centric teaching and learning methodology in which the course delivery and assessment are planned to achieve stated objectives and outcomes. It is an education system built on specific outcomes, and focuses on the skill sets students need to acquire following the completion of their studies. AGBS has restructured the curriculum, pedagogy and assessment practices, to reflect the achievement of high-order learning, as opposed to a mere accumulation of course credits. Outcome Based Learning at AGBS incorporates real-world scenarios, and the knowledge, skills and attributes that students take away at the end of a program or course are more valuable than what, or how, they are taught.
