BHARATIYA VIDYA BHAVAN'S FAITH

Bhavan's Founder President

Kulapati Dr K. M. Munshi

(December 30, 1887 - February 8, 1971)

Let me once again set forth the Bhavan's faith for the benefit of new students and members, for it is necessary that they should understand it clearly and imbibe its spirit.

The Bhavan stands for the reintegration of Indian culture. In a world falling to pieces under the impact of an amoral technological avalanche, it tries to hold fast to the fundamental values for which our culture stands - RITA, SATYA, YAGNA and TAPAS:

- *FAITH in God who informs the Cosmic Order;*
- *TRUTH which is accord between mind and word and deed;*
- *DEDICATION which offers all moments of life as an offering to God;*
- *SUBLIMATION which purifies the body and mind and transmutes instincts, passions and emotions into things of beauty.*

This, regardless of forms and doctrines, is Dharma, the three-fold aspects of which are SATHYAM, SHIVAM, SUNDARAM - Truth, Love and Beauty.

For these values our forefathers lived and died. So did Sri Ramakrishna Paramahansa, Swami Dayananda, Swami Vivekananda, Gandhiji and Sri Aurobindo, among the moderns. These values are embedded in our national outlook; we command the respect of the world because of them.

We can look forward to the future with confidence only because they have the vitality which gives the power to vindicate their validity even in this fear and avarice ridden age of ours.

We, the Bhavan's family, whether it is the smaller one or the larger one, must take every effort in restoring an awareness of these values in personal and collective life.

CHAIRMAN MESSAGE

CHAIRMAN, BVB-DELHI KENDRA & CHAIRMAN BOARD OF GOVERNORS, BULMIM- MESSAGE

Bharatiya Vidya Bhavan is one of the oldest Charitable Public Trusts founded in 1938 by Kulapati K.M. Munshi, who actively participated in the Indian Independence Movement and after Independence was also on the Committee which drafted the Constitution of India. The founding members of the Bhavan included several distinguished

statesman, and leaders of India. The Bhavan has many Kendras spread all over India, and Delhi Kendra is one of the most important units which has contributed in various facets of education and culture. Bhavan's Usha and Lakshmi Mittal Institute of Management (BULMIM) is Bharatiya Vidya Bhavan, Delhi Kendra's initiative.

The Institute has made a mark in the field of Management education in a short span of time. BULMIM gives importance to not only imparting management skills to its students but also the universal values for which the Bhavan stands. I welcome you to be a part of this Institution.

(C.R. GHAREKHAN)

Formerly Permanent Representative of India in United Nations

DIRECTOR, BVB-DELHI KENDRA

Nobody can ignore a historical legacy, especially when it includes such towering personalities like Mahatma Gandhi, Shri KM Munshi, Dr Rajendra Prasad and Sardar Vallabhbhai Patel. Throughout its journey of more than six decades, Bharatiya Vidya Bhavan has successfully carried this legacy on its shoulders. Through education, the institution has successfully taken forward India's message of peace, harmony and tolerance.

Interestingly, in today's world of Management, the need to go back to one's philosophical traditions has deepened. In a global economic system that is highly competitive, it has become a social necessity to achieve work-life balance. This balance can be developed through spirituality.

I sincerely believe that we are all very lucky that we are Indians. Our ancient philosophical thoughts contained in the Vedas and Puranas have solutions to every problem that is a part of the so-called modern life. One has to read these texts in between the lines to pick up valuable lessons in life.

Modern Management is capable of absorbing a wide range of such thoughts and ideas and in the process develop effective case studies to provide solutions to some of the most pressing contemporary problems related to enterprise and society. BULMIM, as an institution, actively promotes such innovations.

I must say that I am proud to be associated with an institution like BULMIM that singularly believes in teaching Management through values. The societal concerns, especially social projects and social business initiatives by the students, that otherwise also are clearly reflected through the institution's pedagogy, demonstrate the institution's commitment for responsible citizenship and ethical governance.

I welcome you all to be a part of this institution and contribute to the process nation-building.

(Ashok Pradhan)

IRECTOR, BULMIM

Welcome to BULMIM –The place that nurtures & nourishes young minds. The complexity of successfully managing business enterprises in an era of uncertainty, compounded by the digital technology revolution, ease of access to information, and the ever changing facets of globalization is a key challenge that managers have to confront on a day-to-day basis. Industry needs competent individuals, who can understand, analyse these complexities, and formulate a strategy to successfully manage these challenges.

It gives me immense pleasure to welcome you to BULMIM - the Bhavan's Usha & Lakshmi Mittal Institute of Management New Delhi, an institution that is part of Bharatiya Vidya Bhavan, Delhi Kendra, whose genesis goes back in time to 1938, when Dr. K. M. Munshi, founded it.

We at BULMIM, New Delhi make every effort to equip our students with the requisite skills, the right attitude, appropriate work ethics, and above all make them thorough professionals. In order to achieve this goal the institute is equipped with the necessary facilities that enhance the effectiveness of knowledge transfer on one side and on the other gives the student an opportunity to explore beyond the classroom. The faculty at BULMIM are well-qualified with a good acumen and flair for teaching and bring to the classroom the latest developments in the realm of corporate world and analyze them with theories, models and conceptual frameworks. The pedagogical tools used are on par with the some of the best Business Schools of the world. The faculty make every endeavour to go beyond the curriculum to provide the students the much-needed edge over others. They also focus on knowledge creation, which takes the form of research and publishing papers in journals of international repute. The knowledge that is created is shared in the classroom too.

In order to make the students appreciate and analyze the real issues that the corporate world faces, they undergo a Summer Internship Program after completion of the third trimester and a Bottom of the Pyramid Project (BOPP) after completion of the fourth trimester, apart from getting exposed to live projects. This provides the student with a realistic view of business enterprises that hastens the process of integration into the world of business.

With our student-centric approach and constant efforts to achieve greater heights every year, we are sure you will have a rewarding experience in BULMIM. I once again welcome you to be a part of this amazing journey of metamorphosis that shapes leaders of tomorrow.

BOTTOM OF PYRAMID PROJECT (BOPP)

Traditionally, industry has been the main focus of management. However BULMIM has made an innovative departure from conventional B-School programmes by adding a new dimension to its PGDM Programme, i.e. "Bottom of Pyramid" Project. Late Prof. C.K. Prahalad, in his book "Fortune at the Bottom of the Pyramid" identified the people at the bottom of pyramid as the world's most exciting, fastest-growing new market. According to him, "Collectively, the world's billions of poor people have immense untapped buying power. They represent an enormous opportunity for companies who learn how to serve them". Serving the poorest of the poor also forms a part of corporate social responsibility. The Institute is aware of these philosophies and through its BOP training programme, has taken measures to train its students to understand and appreciate the needs and aspirations of the people who are at the bottom of the pyramid.

Corporate bodies are looking for special attributes in managers who have been exposed to such environment. Also, under the new Companies Act 2013, the corporate houses fulfilling certain criteria are required to spend two percent of their net profit on Corporate Social Responsibility. This module gives an opportunity to our students to enter into this new growing area.

During second year of PGDM full time programme, the students, after finishing the Term-IV, undergo this training of three weeks. The training is arranged in collaboration with corporate or NGOs that work in a rural, semi urban, or slum area. My time in BULMIM is an experience and memory that I know will last with me forever. The always approachable faculties, their valuable teachings, the extra-curricular activities and loads of practical trainings/workshops are some of the things I can never forget. SHOUNAK CHOUDHARY
(Batch 2017-19) CarWale

My two years at BULMIM were amongst the best years of my life. I have always been a team player, and BULMIM not only enhanced this skill of mine but also gave me ample opportunities to develop my leadership skills. The college has a very unique culture which is unlike any other B-School, with a blend of Modernity & the Old. The pedagogy they follow is very rigorous and the teachers are very accessible- within as well as beyond the campus. Being one of the handful of colleges who have implemented Analytics and Design Thinking as a core/specialisation module, BULMIM is up-to-date and has made the most of the 'Analytics Bandwagon' and 'Out of the Box Thinking' notion. I hope the institute would

continue to enhance itself in the future as well with cutting edge modern subjects. I would wish my Alma Mater very best of luck and would support it come what may.

TANVI BUTAN
