POST GRADUATE PROGRAMME
IN BUSINESS MANAGEMENT

PGPBM
FOR WORKING EXECUTIVES

PROGRAMME
BROCHURE
2021

About the programme

The Post Graduate Programme in Business Management (PGPBM) was launched to cater to working executives who desire to transition from technical to leadership roles within their organization or outside it. Over the years, this programme has grown in strength and has undergone changes in structure and design. From the academic year 2016, the programme is being offered on Fridays, Saturdays and Sundays, keeping in mind the professional commitments of the working executives. The uniqueness that sets this programme apart from comparable peers is its in-class nature and the scope it provides for engaging in and learning from one's own experience. The entire programme is delivered through direct interaction between faculty members and students in physical classrooms and at convenient times, thereby preserving the rigour and individualized

attention a programme of this nature demands.

We understand that you are making a significant commitment in terms of time and effort, and are looking for serious learning experience. It is our endeavor to provide you as much information as possible to help you make an informed choice. In keeping with this spirit, the programme brochure highlights in great detail, among others the objectives, scope, eligibility and academic requirements. Please take time to review the brochure and visit our website for any additional information that you may need. You may feel free to write to me (pgpbmchair@iimtrichy.ac.in) and are welcome to visit our Chennai Campus (Mondays to Saturdays: 2 PM to 10 PM; Sundays: 10 AM to 6 PM) to see our facilities and know more about the programme.

I am privileged to be a student of IIM Trichy. This course helps executives like me to deepen their interest in learning business management without sacrificing their jobs. There are ample opportunities to learn and grow at IIM Trichy's Chennai Centre. It is very professional environment and learning is made interesting and fun here. I feel this is one of the best investment that I have made. I can make an approximate guess that whatever effort that we put in this course, it will have a 3X multiplier effect in our life.

Programme goals

IIM Tiruchirappalli launched the PGPBM programme to groom working executives who aspire to move into senior leadership roles. Towards this, the programme aims to develop competent professional managers, capable of working in any sector of organized activity, provide leadership and achieve excellence even as they contribute to the welfare of society at large.

The programme specifically attempts to achieve the following learning goals:

PGPBM at IIM-T has been rewarding in every aspect. Way the course is structured, strikes the right balance between work, life and study. The design of the course is effective, gives all round experience and provides ample opportunities to learn about myself which matters me most.

IIM Trichy advantage

Indian Institute of Management Tiruchirappalli (IIMT) is the eleventh IIM and was instituted on 4th January 2011. IIMT is functioning from its sprawling state-of-the-art campus spread over 175 acres of land on Trichy-Pudukottai highway, about 11 km from Tiruchirappalli International Airport.

IIM as a name has steadily become synonymous with

excellence in management education and has established a benchmark for unwavering quality in India. IIM Trichy aims to find its own footing in developing competent professionals for the industry and doing quality research in India.

Hard work, Perseverance, Passion and Integrity are some of the virtues necessary to attain success. IIMT boasts about a collection of

eminent faculty and motivated students which form its backbone. Students are selected after a thorough screening process and IIMT takes excellent care in ensuring an optimal student-teacher ratio to encourage better learning and to impart appropriate guidance.

I have created a network of 42 people who, I am sure, going forward in next couple of years will be occupying very senior leadership positions in the corporate world of India, and who knows, the world. To network with them, to get to know them, to have worked with them on various projects, I think was an invaluable experience which I wouldn't have got had I not joined this particular course. So for me I think it was a win all kind of a situation and I thoroughly enjoyed myself.

Working life has extended so much in the last fifty years that it exceeds life expectancy of even the most successful businesses. Very few businesses are successful for more than 25 or 30 years. And yet most educated people who go to work in their early twenties will keep working until they are 70. And so they had better be prepared for a second career whether it's in another organization where they are doing what they have been doing or in a new line of work. They must be prepared to learn again.

them to the next stage of the admissions process. All candidates with valid test scores will be called for a personal interview.

STAGE: 3 PERSONAL INTERVIEW & OFFER OF ADMISSION

The following table shows the evaluation criteria that would be employed for final offer of admission after the Personal Interview.

I transformed from being a trainer for continual improvement to a renowned consultant for business excellence. I learnt the art of linking all the process improvement parameters with the financial metrics. This helped me to present my consulting proposal confidently to the Board of Directors. Learnings from the various courses on finance and strategy enabled me to present the business case strongly to get consulting contracts across borders.

Industry project

The industry project is a multifaceted, capstone project that serves as a culminating academic and intellectual experience for the PGPBM students. The industry project nurtures critical thinking and develops research, analytical,

planning and goal-setting skills that can facilitate the participants' successful transition from the classroom to taking up challenging professional assignments. PGPBM students are required to work on the industry project for a period of 12 weeks

under a Faculty Mentor of their choice. The project will be evaluated by a panel constituted by the PGPBM Committee, and a 'Satisfactory' rating on the evaluation is required to complete the programme.

With 26 years of experience in Energy business behind me and with my career getting into Corporate, I took up PGPBM Course with few objectives in mind. To strengthen number crunching ability in Business Finance, Learn Financial Valuation Process, Evolve synergies in M&A and gain insight in Corporate Strategies and Governance standards. Two years down, challenged by young peers and a very passionate Faculty with Comprehensive selection of electives, my outlook is completely different and positive. The course is well packaged to re position the career to today's Corporate World and challenges.

An investment in knowledge pays the best interest. As rightly said by Benjamin Franklin, PGPBM at IIM Trichy has given me an invaluable and enriching experience working through case studies and discussions on real-life business problems with excellent professors and peers from various industries. This program has enhanced my critical thinking and problem solving skills and helped me understand different facets of business.

This PGPBM is a phenomenal course which not only teaches us management or finance or strategy but life skills too which is much needed for all of us to be a balanced and grounded person be it in professional as well as personal walk of life. This course literally changes our perception in looking at things and gives an uncanny clarity of thoughts in which every subject we deal with. This showed us the sense of practical and theoretical learning and also taught us on how to be a good manager/leader/mentor. Overall a course that would redefine your skills, embellish your capabilities thereby making you a holistic person.
