During this vast journey of life it is often important to stop at a vantage point and look in retrospect at the distance you have tarried. When you do so it would be difficult to point out at milestones and episodes that shaped you and made you. Kristu Jayanti College has had a remarkable impression on my personal walk and professional marathon.

The workshops, Management Development Programmes, International Lecture Series, outbound and exposure programmes, and of course the countless number of fests that I had the honour of representing the institution in, all have nurtured me and sparked a metaphorical change to make me who I am. Of course, all of this co-curricular is validated only with outstanding teachers.

The teaching fraternity is the crème-de-la-crème of the School of Management. Their passion invigorates learning in a way that's hard to define. Count the number on your fingers of institutions that can give you so much, invest in you so much, and ask nothing in return but your humble involvement in activities, in class and outside of class. Kristu Jayanti College has made an impression on my DNA that will tarry with me wherever I go. I leave now as a Jayantian- equipped to challenge the impossible.
